Summer 2020

Dear Parent/Guardian:

As you may know, New Jersey has implemented a law (AchieveNJ) that requires each school district to utilize a research-based evaluation system for all certified school personnel, including teachers, counselors, case managers, and administrators. The Morris Hills Regional District has selected the James Stronge Teacher Evaluation Model, which is one of the models approved by the New Jersey Department of Education as meeting the criteria of the new law.

One of the requirements of our evaluation system is to ask for student input on the teacher's performance. Your child's teachers may ask him or her to fill out an anonymous survey one to two times per year (hard copy attached for your information—please do not fill it out). The purpose of the student surveys is to give the teacher feedback that he or she can use to improve classroom performance and/or student achievement. **Filling out the survey is completely optional.** Please find enclosed a copy of the Board policy that outlines the implementation of the student survey.

We hope that your son or daughter will provide his or her teacher(s) with honest, constructive feedback that will be used to improve the instructional program. Again, however, no student is required to participate.

If you have any questions about the student survey or the teacher evaluation system, please do not hesitate to contact me at (973) 664-2293, or via email at [nzoeller@mhrd.org](mailto:nzoeller@mhrd.org). Thank you!

Sincerely,

Nisha Zoeller  
Assistant Superintendent for Curriculum & Instruction

## STUDENT SURVEY – TEACHER/EDUCATIONAL SERVICES

The Board of Education believes that teacher evaluation is best accomplished by assessing a teacher's performance by using a variety of tools. Student achievement gains, observations by certified administrators, and student input taken together are all research-based methods to assess teacher performance. In compliance with N.J.S.A. 18A:6-122, the district has adopted a research-based evaluation program that is used to assess teacher effectiveness. The term "teacher" for the purposes of this policy refers to anyone holding certificate issued by the New Jersey Department of Education who is not working in an administrative position.

One part of that program requires the teacher to conduct confidential, anonymous surveys in his/her class or service area at least 2 times per year. These surveys are designed to gather information for the teacher concerning the student's perception of his/her effectiveness. Students will be informed that their participation is voluntary and that they may opt-out of completing the survey. Students will also be informed that their grades will not be impacted if they elect not to participate, nor will they receive extra credit for participating. The template survey is used for all disciplines and is approved by district administration. Additional questions may be added by the teacher but must be approved by his/her supervisor. The completed surveys are reviewed by each teacher with a summary presented to the teacher's administrator as part of the data to be included in his/her year-end evaluation.

In order to receive meaningful data for this process, students must believe their responses are anonymous and confidential. The district will not tolerate retaliation against any student, group of students or class as a whole for the results of any student survey. Any complaint of retaliation will be reviewed by the supervisor and, if found to be true, will be addressed with the teacher who may be subject to disciplinary action.
