

SUMMER ENRICHMENT AT MHRD

Attention Rising 7th and 8th Grade Students!

The Morris Hills Regional District is excited to offer 3 enrichment opportunities this summer. This is a fantastic chance for a hands-on experience as you learn more about a technical field and your options in high school.

Program Offerings

July 21 –
July 25

Aviation and Drones

Get in the cockpit and fly one of our aircraft simulators as you learn the basics of taking off, landing, and flight. You will also complete a drone search and rescue mission as well as an obstacle course.

July 14 –
July 18

Film Making

Learn about industry standard film equipment and camera operation. Participants will write, film, and edit a short film as part of this program.

August 4–
August 8

Robotics

Discover the engineering design cycle as you learn about the impact of robotics on our daily life. As part of this program you will design, create, and compete in a challenge with your robot.

Registration
